## FOTOSEPTIEMBRE: Animal Instinct : The Photographs Of Daniel Lee

Presented by San Antonio Museum of Art at San Antonio Museum of Art

September 2, 2011-February 19, 2012

Animal Instinct is a survey exhibition of Daniel Lee's photography from 1993-2010. Lee uses digital technology to create hybrids of human beings and animals, portraying the idea that people often exhibit behavioral, personality, and physical which resemble those of animals. Since the early 1990s, Lee has examined human behavior as related to such themes as the Chinese horoscope, Buddhist ceremony, punk night clubs, genetic altering, dreams, and the circus. Lee was born in 1945 in Taiwan, but emigrated to United States to study art in 1970. He currently lives and works in New York City.

Curated by David S. Rubin

The Brown Foundation Curator of Contemporary Art
