Through September, San Antonio will have the attention of artists around the world as it hosts the FotoSeptiembre USA International Photography Festival. FotoSeptiembre showcases the works of both established and blossoming artists amid a large pool of photography enthusiasts. Established in 1995, FotoSeptiembre has grown from a small cluster of exhibits and conferences to the international event it is today. Look for exhibits all over San Antonio, including the works of Canada's Adad Hananah at the San Antonio Museum of Art and Switzerland's Alex & Felix at the Instituto Cultural de México. Most exhibits end mid-October.
