Welcome to the 2003 edition of the FOTOSEPTIEMBRE USA International Photography Festival; an eclectic forum for the exhibition and celebration of photography and photography-based art forms.

Throughout the last eight years the SAFOTO-FOTOSEPTIEMBRE USA Festivals have sparked an unprecedented surge of photographic output from within our regional community. In this year's festival, aside from established and mid-career artists; respected city leaders, energized activists and young shutterbugs, join their talents with those of an already burgeoning pool of avid photography enthusiasts from South Texas and beyond. All in all, this enormous artistic growth reflects a deep interest in photography as an art form and as a means of personal and cultural expression; it also points to our community's expansive, enthusiastic embrace of the FOTOSEPTIEMBRE USA Festivals.

FOTOSEPTIEMBRE USA is first and foremost a people's festival. As organizers of FOTOSEPTIEMBRE USA, we strive for the highest levels of quality and service for the benefit of festival participants and the community as a whole. We fully engage the rich multiplicity of our combined cultural legacies and we are proud of the opportunities for outreach, artistic advancement, and economic development that are generated by the Festival.

Aside from the many wonderful exhibits presented in San Antonio during the month of September; several galleries in Kerrville, Boerne, Rebecca Creek, New Braunfels, San Marcos and Austin are also showing fine photographic work from important regional artists. Plan a Hill Country day trip to visit these galleries.

This year, we have renewed our close traditional links to Fotoseptiembre Internacional, which is organized by the Centro de la Imagen in Mexico City. By cross-promoting our sibling festivals, we are adding many opportunities for increased international exposure, resulting in a more comprehensive and desirable exhibition context for participating artists.

A complete listing of over 50 exhibitions and other information about FOTOSEPTIEMBRE USA 2003 and the SAFOTO WEB GALLERIES, is available at www.safotofestival.com; where you can also link to Centro de la Imagen's web site for information on Fotoseptiembre Internacional and the Image & Education International Colloquium.

Enjoy the exhibits. Join the fun. Make lots of pictures.

Thank you.

Michael Mehl & Ann Kinser
